23	Speaking on behalf of my son who is 20 years old, it is critical that he receive these services not only to give him the confidence and independence he needs; but to make up for the loss of a full year of support due to the pandemic.	7/27/2021 8:50 PM
24	My son and the clients I serve need support to be involved in community socially and with employment so they can have self confidence and thrive. They need transportation to get to places as their family are working and cannot transport them to day services or employment. In the event that family is not available to care for them, they need community to help them get a place to live, get food, ride public transportation. Of course all this requires ability to read and comprehend instructions on buses, stores, and pay bills for places to live. Appropriate Interaction with others can be critical when in the public setting and this is another factor that they need assistance with.	7/27/2021 4:37 PM

1	We mov3d here right before covid our initial meeting was VERY encouraging but now I can not find anyone to talk to I am in SE Wis	8/18/2021 9:07 PM
2	It is poorly supported and available outside of Madison. The ARC has done little to stimulate system change and represent those individuals who may not be able to or who are afraid to advocate for themselves. I wish the ARC would do more to link with providers who want to advocate for change and have a closer look at the "system" and how it limits opportunities and information for people with disabilities.	8/16/2021 11:06 AM
3	The Arc Wisconsin keeps me informed on things that will have an impact on my adult daughter with disabiliites.	8/13/2021 4:17 PM

9	The pandemic shutdowns are worse than anyone yet knows. Our IDD individuals lost so much in the little social activities they had pre-pandemic. Zoom meetings aren't a good way for our IDD peoples to socialize. The long term effect of shutdowns haven't been studied in the long term because that is impossible. Sorry, I feel that shutdowns cause more and deeper depressions than recognized at t his moment.	7/28/2021 6:39 PM

18	Help advocate for funding for affordable and accessible public transit. Protect voting rights for the disabled in the community and nursing home residents	7/27/2021 2:24 PM
19	I think The Arc Wisconsin needs to be a better advocate for all families, even those who choose groups home settings for their loved ones. Everyone has different needs. Not everyone can work or live independently. See and recognize the 5% of people with disabilities who require 24/7 care for their severe physical/cognitive needs and require more support than caregivers coming into a home can provide. Parents burn out and can't physically do it anymore. Those people still need your advocacy and support.	7/27/2021 2:21 PM

1	You need to do more coalition building with others in the DD field. I don't think you or even many people with disabilities know how they are manipulated by managed care systems to be put in unsafe or unsupported situations that are not "person-centered".	8/16/2021 11:06 AM
2	ADRCs throughout the state have funding for some services to advocate and promote awareness of people with IDD	8/13/2021 9:43 AM
3	Work with school systems to raise expectations for outcomes for individuals with IDD	8/4/2021 11:23 PM
4	Health care- expand access to dental care for adults on Forward Health. Respite for caregivers supporting their adult child or siblings their are supporting their adult brother or sister. It is very hard to find providers and extremely expensive. We need to support the wellbeing of the caregivers to better support quality of life of our adults with ID/DD. Transportation- it is unfair for people on the waiver to pay 15.00 a ride when those without the waiver pay 4.00 a ride. If the individual is on the waiver, they eat up a larger chunk of their IRIS budget on transportation to get to the day services or employment and when they need to pay out of pocket for Valley transit 2 they are on the list as agency funded and need to pay 11.00 more per ride. This is ridiculously unfair.	7/28/2021 11:25 AM
5	Push for stronger role, expertise, advocacy and services at ADRCs for people with IDD.	7/28/2021 9:47 AM

3	Support a higher asset limit for disabled individuals on social security disability and Medicaid - over \$2,000. Disabled individuals should have choices of where they want to live and work. Not all disabled individuals want to work in the community because of anxiety issues or other issues.	8/15/2021 9:01 PM

7	While there may not be many who have a funding roadblock, someone needs to work on funding policies to assure full and funable care coordination of services. Due to nursing shortages, I cannot fill all the hours available but IRIS will NOT recognize this blatent problem so they expect someone to provide care for free if I can't fill the nursing shifts. It is just insane!!	8/13/2021 12:19 PM

12	Being disabled, what I need most are the funds to "live" not just "exist". RAISE SSD/I TO POVERTY LEVEL! Thats the help we truly need, not another government agency sucking up funds that people need.	8/13/2021 9:06 AM
13	ARC us doing a lot but there's so much more to do for instant celebrity I do not believe a person with dementia or other cognitive disabilities should be put in a behavioral health unit as I tend to find staff is not trained in how to deal with people with dementia arguing and screaming at people is not how you handle dementia. There is a reason why there are mental health factors and why there are neurologist. Recently I had a situation where the behavioral health doctor totally refused to believe that my husband had dementia even though he was evaluated at three different facilities including a sister hospital of the doctor and thought my husband had schizophrenia. The medical drugs were not helping my husband and, of course would not, and some of the drugs are not to given to a person with dementia.	8/13/2021 9:05 AM
14	I have tried to reach the arc several times and had difficulty. We are moving to Wisconsin and I need more information.	8/13/2021 9:00 AM
15	Thank you! We are currently learning about the things that The ARC provides.	8/13/2021 8:48 AM
16	While all the work the Arc is doing is important, I tried to think about who else might be doing some on the activities listed and therefore might not be a priority of the Arc. ex. abuse and neglect-DRW is federally designated to take on this role. Is there a missing piece that the Arc might need to do without this being a priority.	8/12/2021 11:46 AM
17	It is great	8/10/2021 3:55 PM
18	I really am concerned about schools being the place where the trajectory of community and employment involvement occurs. Our district actually has a rubric that funnels kids into day programs or employment. The decision is being made before these kids even leave high school as to who will have an opportunity to succeed at a higher level and who is held back.	8/4/2021 11:23 PM

19	I need help. I might be disabled but I'm not dead and I can't live off of \$750 a month SSDI. But I'm to physically ill to work. But my brain works FANTASTIC.	8/4/2021 1:19 AM
20	Lisa you are doing great work! It was really hard to chose/prioritize the challenges, they are all important.	8/3/2021 11:07 AM
21	The ARC-Wisconsin has and continues to do an excellent job advocating on behalf of people with disabilities. I've had the pleasure to work with Lisa Pugh on certain projects and coalitions. Her participation and insights have been invaluable.	7/29/2021 1:51 PM

23	Caregiver shortage is huge right now and the EVV system is not making caregiving any easier. Lack of smart phones or tablets and internet access will make this impossible for some; causing a new barrier for caregivers.	7/29/2021 9:35 AM
24	ARC is not active or very visible in this area.	7/28/2021 4:21 PM
25	The shortage of caregivers is a HUGE issue that terrifies me. As a caregiver myself, I am exhausted. We need help. Caregivers/staff need to be paid better--this is a very physically intense job that requires qualified people. As the baby boomers age, the need for caregivers has dramatically increased. Something needs to change to create more workers in this field.	7/28/2021 11:44 AM
26	Caregivers are in desperate need for increased affordable and safe respite care options for overnight extended stay. This is important for quality if life for adults with developmental and intellectual disabilities, especially those living with adult sibling caregivers. The pandemic has been very difficult on these families. We love our siblings but we need time as a family unit so that we can recharge and support our children in navigating the adjustments caregiving for their uncle/aunt has required of our lifestyle.	7/28/2021 11:25 AM
27	People with DD need a chair at the table to change policy. We need help for our families. We can't continue to do it all until we die.	7/28/2021 11:00 AM
28	Teach advocacy! what we have now has been fought for. The full history of disability should be understood and used as an example of what has been achieved and how it was achieved. Then teach persons with disabilities how to contact their representatives and respectfully lobby their issues...in government it's all about the number of contacts on a particular issue!	7/28/2021 9:47 AM
29	I have not been able to keep up with the help you provide. As a single parent with very little help, it is easy to be overwhelmed by day to day responsibilities.	7/28/2021 8:52 AM

32	I am very impressed with the connections The Arc continue to make and appreciate the work that is being done for families and individuals with IDD.	7/27/2021 11:10 PM
33	It would be helpful to have small places, like an assisted living facility concept, for some people with IDD due to staff and recreation shortages, and safe transportation challenges. The desire and need for some people with IDD to have personal space with supervision, might be met with a place like this. My 23 yr old daughter, with IDD and some physical challenges, mentioned this to me after visiting her Grandma in her assisted living apartment. My daughter moved into her apartment this past January and loves her new found independence although she needs assistance using a stove, grocery shopping, laundry, connecting with the community for recreation and social as well as supervision with medication and showers. She likes that grandma has her own apartment but can get assistance from staff quickly when needed. She likes the activities offered for fun and the opportunity for social connection as well as her own apartment to escape when she wants to be alone. I don't want institutions to come back but something needs to happen soon for housing and care. Would love to know what happened with all the funding from when the 4 Wisconsin Centers were open and housing people with IDD/mental health issues. The plan to offer community living arrangements and quality healthcare fell short for community living. I was working at a dayprogram when the Centers were being emptied. Madison is creative with staff supervision and housing for people with IDD, but the rest of the state seems to rely heavily on family. We're getting old and need to know our children will be cared for.	7/27/2021 10:04 PM

36	What major changes have you made to the arc since 2017?	7/27/2021 5:06 PM
37	Pay needs to increase for quality direct care workers. Then we can get rid of workers who neglect or do harm. Need more day services. Need to make DVR a less scary place and hire compassionate people instead of cold, callused which was our experience. Then when supportive employment was unsuccessful they dropped my son. Now nothing. Legislators need to answer our emails and phone calls.	7/27/2021 3:32 PM
38	Many of us who are looking for resources do not have a lot of time more working moms in my case when someone calls in we could really use more handholding and direct information on where to start.	7/27/2021 2:38 PM
39	I love teaching the Arc Academy course called Health Matters with Lisa!	7/27/2021 2:33 PM
40	Please focus on the dire shortage of direct care workers. Work to deeply understand the barriers and disincentives to the workforce. How might we elevate direct care in a person's home and community to a profession that workers seek out and stick with? The hourly wage cap of \$15 hr., and usually without healthcare benefits, makes hiring for self-directed services extremely difficult. Why do only MCOs get to apply for grants to fund/subsidize their workforce overhead but IRIS providers may not apply? Just scratching the surface of the problem...	7/27/2021 2:13 PM
41	I love what you do. Insert clap emoji here :)	7/27/2021 1:53 PM
